Since there's no option for a mixed review, this DLC doesn't offer that much. You're just getting a single trailer skin. Sure it's only \$3.99 USD, but it really depends if you want to spend a bit of cash on this particular DLC.. What a waste of money. You can't even have different axle types.

The fact that Easy Rider tires get the best score is just ridiculous. These tires are amongst the worst in the business..... Love the trailers, also noted that you can get the reefer earlier (level 12, iirc, while the standard unlock is at 15).

The models are very good and look nice while you're carrying important stuff across Europe to grow your company.
