About This Game

The evil scientist Dr. Eggman (aka Dr. Robotnik) has snatched the poor animals of South Island and turned them into robots.
Only one hero can defeat Dr. Eggman and rescue the animals from his vile clutches – it's the super-cool hedgehog with the blue spiky hair, Sonic!

Title: Sonic The Hedgehog
Genre: Action, Adventure
Developer:
SEGA
Publisher:
SEGA
Franchise:
Sonic the Hedgehog
Release Date: 26 Oct, 2010

b4d347fde0

Minimum:

OS: Windows® XP or higher

Graphics: 32MB or greater graphics card

DirectX®: DirectX® 9.0 or greater

Hard Drive: 50MB free disc space
System specs for classic launcher.

A very very simple game up to this point. And I wouldn't have thought that I would enjoy it as much as I have for the time I played it so far...

I can absolutely see this as a game that can be used for a myriad of things for those that utilize their imagination for whatever reason. Nice little dice game too that is relatively fun, though based on luck 98% of the time.

I would go over the pro's of this game, but I can't specifically find them. It runs smooth. It's simple. It's fun. Those are your pro's. And when they are like that, you know you got a game on your hands....

Let me hit a few con's.

No online competitions so far. Or any pvp for that matter. But it does sound like the dev's are still actively working with the game, which is a big bonus in my opinion.

I hate having full screen games. The option to change that would be nice for this one.

After viewing some of the abilities, having agility over strength seems a bit more potent. Not sure yet though as I haven't gotten that far to fully explore the variances.

Could have more 'end of battle' kill scenes, barter scenes, etc...stuff like that...

Could have a 'legacy' system in place to remember ALL of your fallen warriors...

But, as I have mentioned, this game is great! Definitely worth the buy!

Keep up the good work devs (especially for this game...lol). A very good Napoleonic war game but it would of been nice to play as another nation at that price.

7/10 worth a buy.. realy cute pc game! I realy like it! You can play it!. Well, I would review the game. Except my old NVIDIA drivers apparently keep me from playing it with some ♥♥♥♥♥♥♥♥t PhysX error. Considering I'm not on an AMD card, this is annoying.

And no, running some random apt-get like program for windows to properly install it through powershell and installing who knows what it may be on my system is a reasonable solution. Really people, don't run random command lines someone recommends just to run a dated game.

So: I give this game a big fat stupid, since it doesn't run at all. I guess I'm out a few bucks from steam from this steamer, but live and learn: don't buy old games on steam.

. It's a fun game and I enjoyed myself for about 3 hours according to steam. I really feel this is more of a smartphone/tablet game. However, that doesn't really detract from it's fun. Great buy if on sale!

This is a game as an example that fancy graphics are not enough to make a good game. This short game and poor level design it is only saved by some epic scenes but I don't recommend it. You can notice that the developers were either tired or they didn't have the time .. This game is a joke lol. Grab the cards and run like the wind.. it's actually game of the year 2018. 8.5/10

This joins thing I love:

Trains

City development (also you can build your own)

Tycoon games

A little expensive, but I think it values each cent.. PSA: This is a kinetic novel. As in you don't get to make choices, it's not a choose your own story type of game. You just sit back and read. Not that that's bad or anything, but I bought it thinking it would be more of a visual novel where you get to make decisions that affect the story outcome. Bad on me for not reading more about the game, but I did like the artwork and the wild west setting intrigued me since there aren't any other games like this that I am aware of. Though hard to classify this as a "game" if there is no interactivity other than clicking to turn the digital page, if you will. I am going to try streaming it to my Shield later on in the bathtub. :D Oh and if you like this, check out Highway Blossoms, it has a western-ish vibe though more modern. Also both games have yuri vibes which I dig on. ;). Soundtrack is amazing, as are the graphics.

11/10 deadly pathogens
